Instructions to authors

Title (Font size 16, bold, small letter, only first letter and proper nouns capitalized, suggested maximum of 15 words)

Name(s) of author(s) (font size 14, bold) and complete postal address(es) of affiliations (font size 11, italics)

• Abstract [Font size 10, not be longer than 250 words (without paragraphs).]

• Keywords: [Font size 10, 3 to 6 words]

• Introduction [present a brief discussion of the most relevant and recent work to justify your study, but not an elaborate literature review. Mention the study objectives clearly as the final part of this section. Font size 11]

• Materials and methods

(Sub headings should be small letter, italics and without bold. Font size 11)

• Results

(Sub headings should be small letter, italics and without bold. Font size 11)

• Discussion

• Acknowledgements and any additional information concerning research grants, etc.

• References (maximum 20 for original papers and 30 for reviews. The list of references should be arranged alphabetically on author's names. Avoid, as much as possible, references to publications that are more than 20 years old)

The citation in the text and bibliography should be in the Harvard style. Literature citations should appear parenthetically in the text as the last name of first author and year of publication, such as (Wagner, 1992), (Smith and Peters, 1991) or (Johnson et al., 1987). Citations should be presented in the bibliography alphabetically by author names and if two or more publications are used by the same authors and the same year of publication, lower case letters following the year of publication should distinguish them, e.g. (Smith, 1990a,b), (Gunter and Miller, 1990b).

Tables/Figures/Photographs

Tables and figures should be placed at the end of the manuscript following the Reference section. Each figure and table should be numbered in Arabic numerals and mentioned in the text.

Authors should take notice of the limitations set by the size and layout of the Journal. Large tables should be avoided. The maximum type area is 17 cm width and 22 cm height. Figures must be clearly lettered and suitable for reproduction to fit either one column width (8.5 cm) or two columns width (17 cm).

Black and white photographs (Gray scale) are only acceptable. Ideally the figures should be of the maximum size is 8.5 x 10 cm. The lettering in the figures should be readable. In addition to the printed version, the figures and tables can be supplied in electronic format as JPEG or TIFF. Photographs/figures (grey scale mode) should be saved in separate files without their captions. Captions may give on a separate sheet as (Fig.) and (Tab.). Graphs can give as excel format itself. Avoid boarder lines for figures/graphs.

Submission

Submission in electronic form of the final version of the manuscript is compulsory. Please make sure that you send both as hard-copy printout and on diskette to
